

Trustless Work

Escrow Infrastructure for the New Economy

Trustless Work provides **Escrow-as-a-Service (EaaS)**, enabling platforms and businesses to integrate **secure, transparent, and efficient escrow solutions** into their payment flows.

Problem

Global payments are **slow, costly, and insecure**. Traditional **escrow services** are expensive, centralized, and lack flexibility. Ebay and Upwork can afford to build their own escrow infrastructure, but the reality is that most businesses don't. And many platforms that could use escrows (marketplaces, directories, crowdfunding, etc) in their payment flow end up missing out due to cost, complexity and lack of resources.

Trustless Work offers a **developer-friendly escrow API** that allows businesses to integrate **smart escrows seamlessly**. We provide **configurable, scalable, and transparent escrow infrastructure** that platforms can seamlessly integrate in minutes, instead of months.

Product

- **Escrow API** – Plug & play escrow functionality for **marketplaces, SaaS platforms, fintech, and e-commerce**.
- **Smart Escrow Templates** – Pre-built open-source templates for **crowdfunding, security deposits, trade finance, and more**.
- **Dapp Backoffice** – Interactive UI to deploy, manage and resolve escrow transactions transparently. Open source.
- **Viewer tools** – Dapp to track escrow transactions transparently.

Market Opportunity

- **\$6.6 Trillion+** global B2B payments
- **\$4.5 Trillion e-commerce and digital marketplace transactions**
- **\$1.5 Trillion in cross-border freelance & gig economy payments**
- **\$400 Billion+** in escrow transactions yearly
- **Stablecoin & blockchain adoption surging**

Business Model

- **Transaction Fees:** 0.3% - 0.5% per escrow transaction.
- **API Subscriptions:** For enterprise integrations.
- **Token Incentives:** Future tokenized model for volume-based rewards & governance.

Competition

- **Legacy Escrow Agents** - Focused on Real Estate and High Value transactions. Slow, costly.
- **Escrow.com** - Services Ebay and Domain sales, charges ~ 6% - 8%, deliver funds in 8 days
- **Upwork Escrow INC.** - Services only Upwork, charger ~5 - 8%, delivers funds in min 8 days
- **Web3 escrow products** - Mostly B2C's in a specific niche (P2P marketplaces, freelance etc.) we could provide them the infra and reduce their costs.

Traction

- 200+ open source contributors in ecosystem (core repos, open templates, products)
- 350+ clones to Open Source repositories
- 10 MVPs currently building.

Fundraising & Investment Opportunity

- Received over \$100k in grants
- Early Investors: **Draper University, Stellar Development Foundation**
- Raising pre-seed: **\$800,000**
